Mighty Cam Auto Focus

with Ultra-Glide Arm Stand

360° rotatable ball joint. Tilt and rotate the camera to nearly any angle.

Effortlessly Inspect Large Objects

View 1080p HD images without the inconvenience of having to constantly re-adjust the lens focus. Comes complete with a 32gb Micro SD card. Aven's Ultra-Glide Arm Stand System is ideal for inspecting parts over a large surface area. The ultra-glide arm stand provides smooth motion along its 23in length, allowing for easy scanning. The stand features a 13.5in post with a safety collar, and a heavy 10.5in x 15in base. This system comes complete with Aven's Dual Gooseneck LED Task Light and 22in LCD Monitor.
