MEMS Microphones & Audio DSP

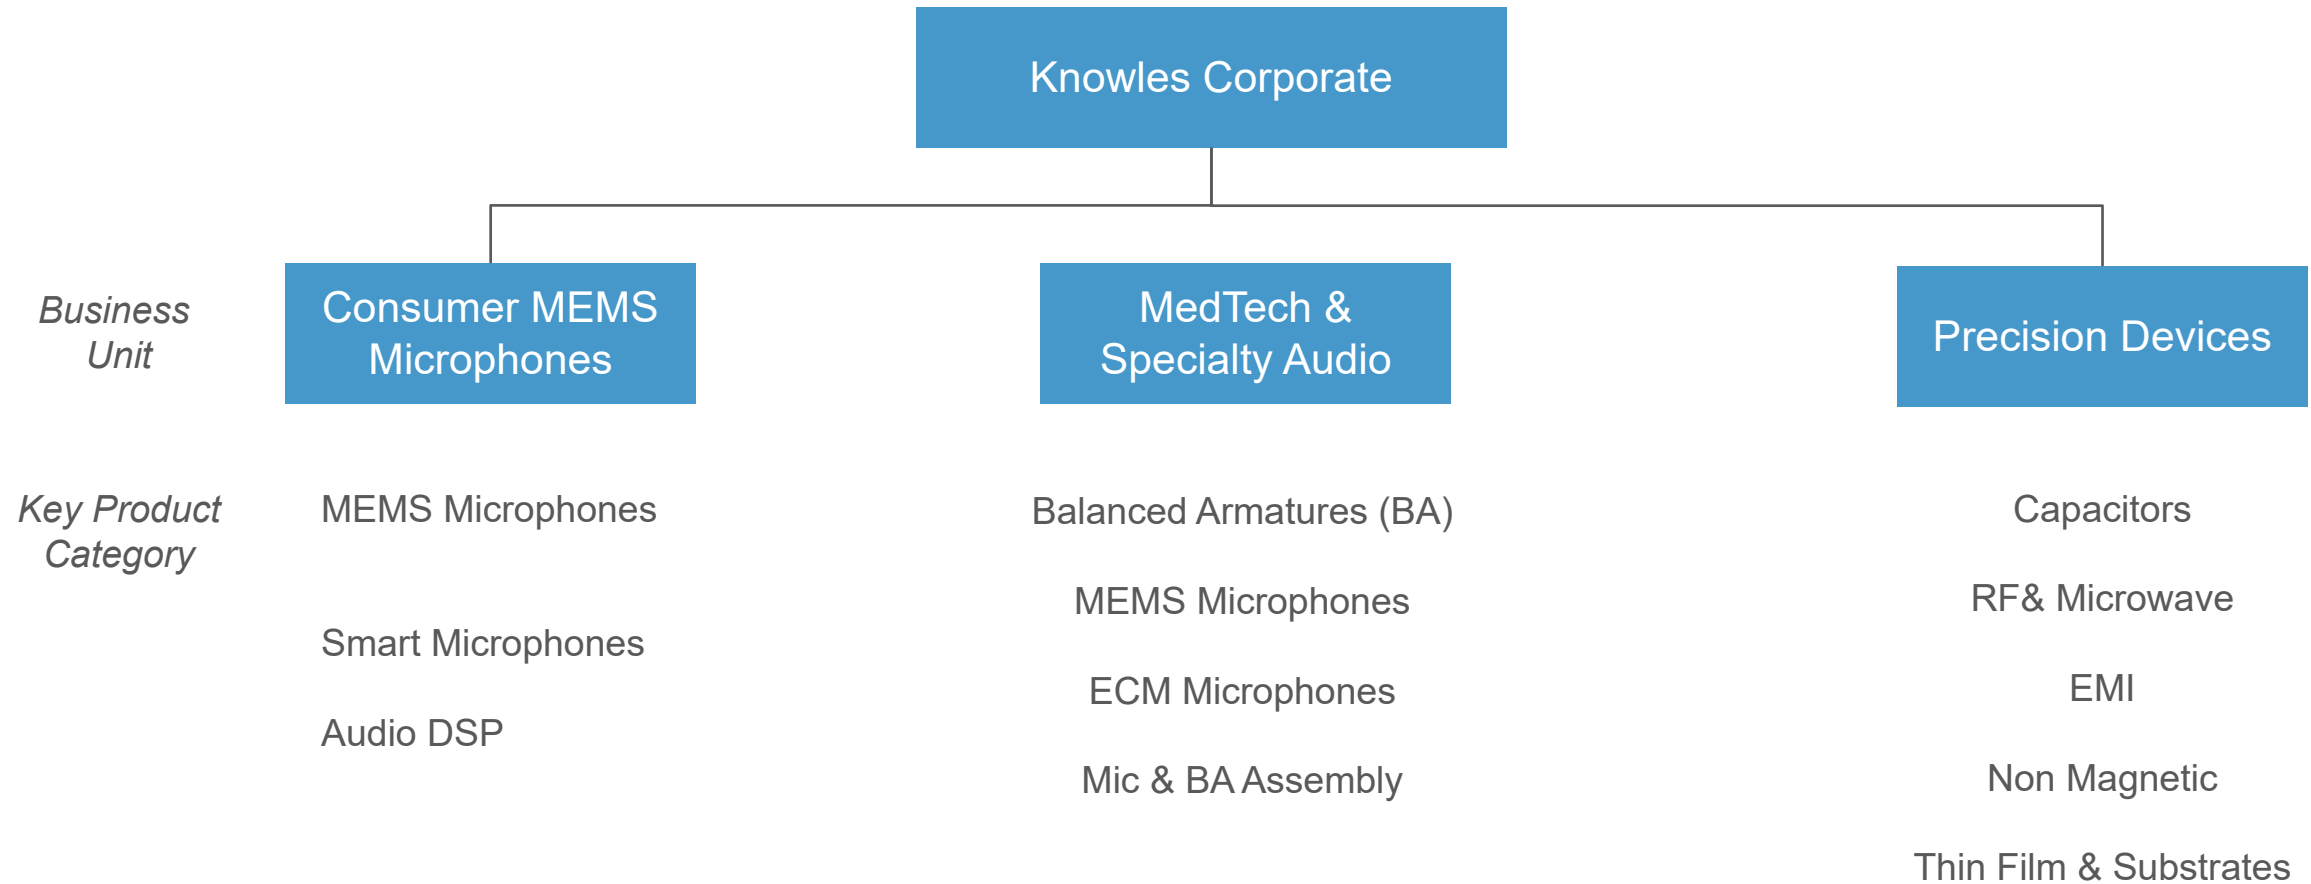

To Address every Use Case

Celebrating 75 Years of Innovation

Knowles Organization

Knowles develops microphones, speakers, audio solutions, capacitors & RF filters for world's leading tech providers

KNOWLES CONFIDENTIAL & PROPRIETARY

Key Consumer Use Cases

Vlogging
Social Media Content Creation
Cinematic Film Making

WFH – Audio / Video Conferencing
Virtual Learning
Voice User Interface (VoiceUI)

Ambient/Transparency Mode
Active Noise Cancellation
Talk Voice Quality

Bluetooth Voice Call
Cabin Comfort – Road Noise Cancellation

Emerging consumer audio use cases across markets

Our Product Portfolio

Higher Performance, Better Clarity & More Efficiency

Digital Mics

Analog Mics

Increasing Performance

Innovation

Enabling clear voice calls in noisy conditions

V2S
S:64.5dB
BW:4kHz, Low Power Dig
Pkg: 3.30 x 2.30 x 0.93
Under Development

Automotive Grade Mics (AEC-Q100/103)

SPH6855
S:68dB, A:130dB SPL
Digital, -35dBFS
Pkg: 3.50 x 2.65 x 0.98
NEW
SPH6655
S:68dB, A:121dB SPL
Digital, -26 dBFS
Pkg: 3.50 x 2.65 x 0.98
NEW
SPH8855
S:66dB, A:120dB SPL
Digital, -26dBFS
Pkg: 3.50 x 2.65 x 0.98
NEW
SPH9855
S:66dB, A:132.5dB SPL
Digital
Pkg: 3.50 x 2.65 x 0.98
SPH1878/2878
S:67dB, A:134dB SPL
Analog, 85C/105C
Pkg: 3.50 x 2.65 x 1.26

High Performance in Top Ports

Scarlet
S:66dB, A:132dB SPL
Single Ended Analog
Pkg: 2.75 x 1.85 x 0.90
Under Development
Gaudi
S:68dB, A:121dB SPL
Digital
Pkg: 4.00 x 2.00 x 1.10
Under Development

Voice Vibration Sensor (V2S) – A solution to a common challenge

The Need

Traffic

Loud Bar

Busy Office

Background noise overwhelms microphones during calls

Multi-mic beamforming and algos help but not sufficient

A targeted solution needed to selectively pick-up speaker's voice

The Solution

- 1 Throat/vocal cord – Vibration created on speech
- 2 Vibration travel from throat to ear. Body is low pass filter and attenuator. V2S in TWS senses vibrations
- 3 Clear voice signal sent on the Voice Call

SiSonic™ Product Portfolio

The broadest microphone portfolio

Rich feature sets

- Multiple Performance Modes
- Low Power
- +/-1dB Matching
- Ultrasonic Bandwidth
- High SNR
- Low THD
- Flat Frequency Response

Digital

PDM

Analog

Single-Ended
Differential

AlSonic™

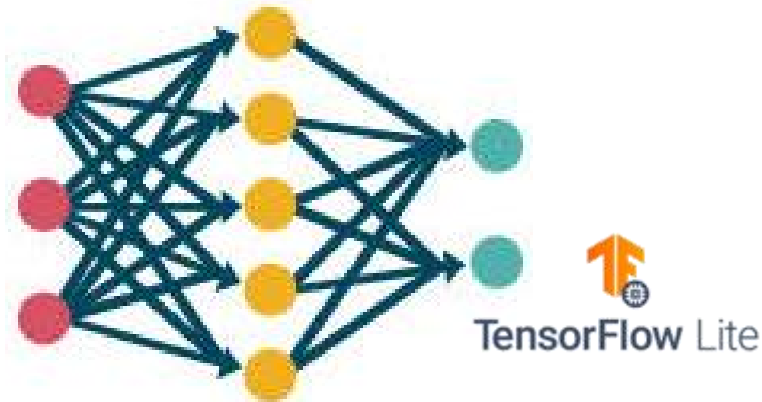

AI and Audio Edge
Processors

The Knowles Value Proposition

Advanced DSP algorithms built using Knowles instruction set

Native hardware accelerated ML instructions for Neural Networks

**Knowles
AIsonic™
Edge
Processor**

Leading Compute Efficiency for long battery life

$$\frac{MOPS}{mW}$$

Reference System Solutions for Time to Market and Quality

AIsonic™ Success Stories

- ▶ Since the launch of the IA8201 it has been designed into multiple product categories establishing leadership in
 - Performance and Power for voice applications for battery powered devices
 - Scalability and ease of integration across a myriad of embedded platforms

Bluetooth Speakers
Consumer and Enterprise

3-6mics

Smart TVs, Screens,
Monitors And Remotes

2 mics

IoT and Farfield
Devices

1-4 mics

White Goods and
Smart Homes

4-5 mics

Solution capable of multiple
ASRs via Amazon Voice
Interoperability Initiative,
2MB memory

OTE

6 mics

Low power for long Battery Life

AIsonic™
Edge Processor
Roadmap

Knowles Intelligent Audio Solutions

IA611

Single-Core Top Port

- Low power always-on voice wake
- DSP + Mic = smallest footprint
- Lowest system cost solution

IA700

Single-Core Low Power Edge Processor

- 100MHz HMD-Lite 32-bit core
- Pair with 2x Cornell12 Microphone for Beam Forming

IA8201

Dual-Core Audio Processor

- 175MHz AU/ML cores with up to 128b data-path (4x 32-bit MACs/cycle)
- 1MB/4x PDM mic or 8x with TDM

IA8202

Extended Memory Quad-Core Audio Processor (Sampling Aug'22)

- Multi-channel AEC, Concurrent Voice UI ASR and Calling
- Ambient contextual detection
- Local ASR
- Low power VAD
- 2MB usable memory
- 8 mic inputs

Edge Smart Mic

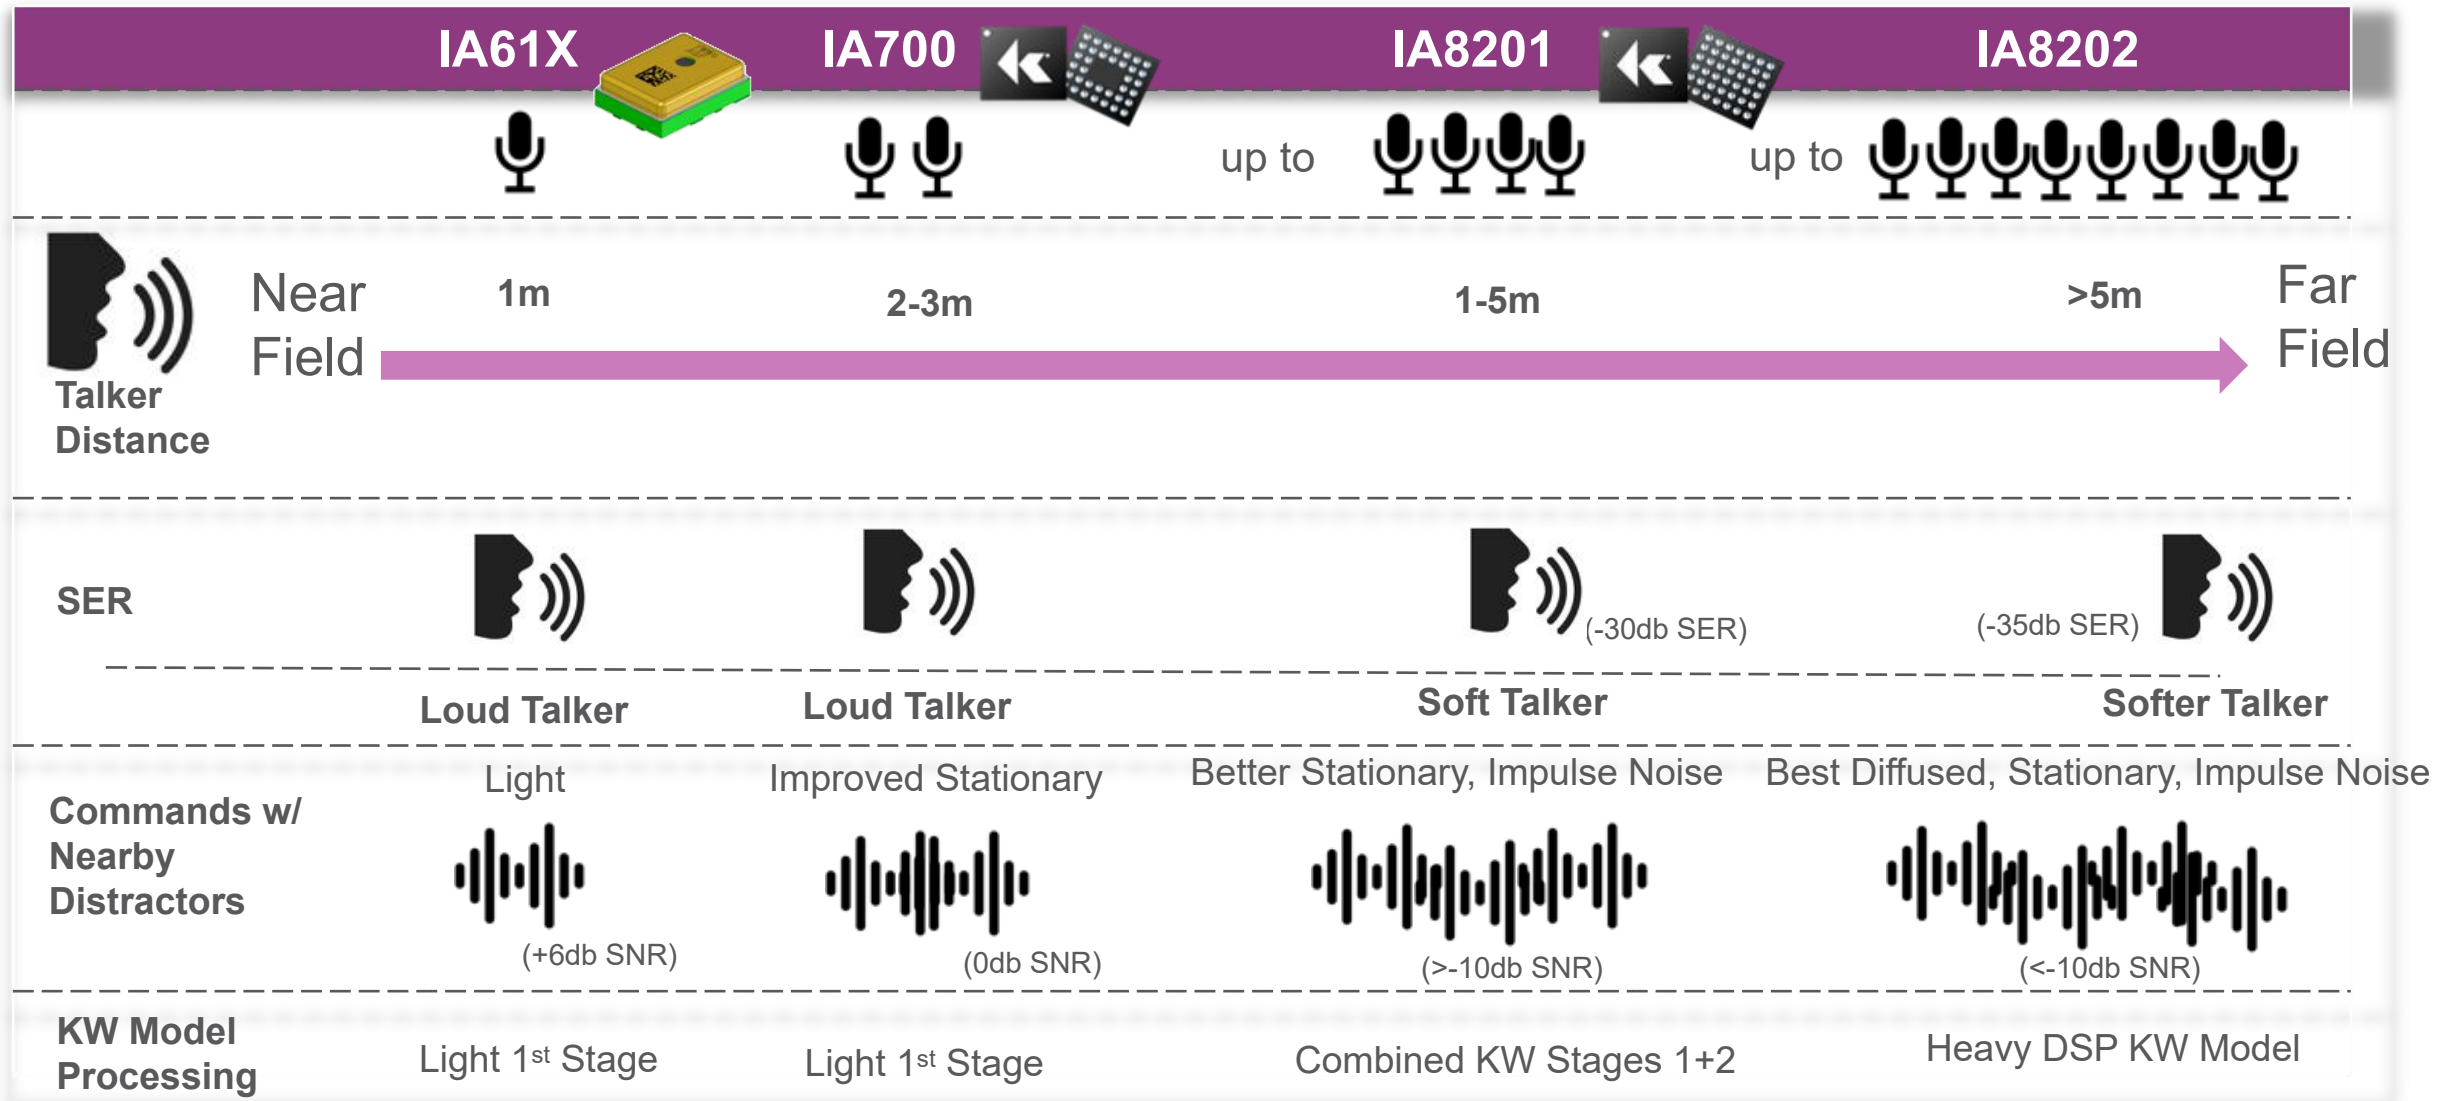

Audio Edge Processors
