(note 1)

This product features top-contact point.
"One Action Lock" completes FPC lock just by inserting the FPC.
Do not operate the locking-lever when inserting the FPC.

(note 2)

Do not insert the FPC to this product at an angle.

(note 3)

 There's a case which FPC retention force doesn't fulfill the value, because FPC specification affects the result of FPC retention force.
Stabilize the FPC to PCB or something fixed, if pull-up or pull-down force is expected to be applied to the FPC.

(note 4)

Blisters which may be generated on the housing do not affect product performance.
