

30 Piece 5.5 / 2.1 mm to DC Barrel Jack Adapter Kit

Product ID: 5584

These two Short Plug / Male Headers alone are, well, lonely. But pair them with the [Raspberry Pi Pico](#), and you're in business!

These 2.54mm / 0.1" pitch headers are particularly cute and tiny and are designed to match perfectly with the Pico and our [short socket headers](#). Note that you *could* use normal header with those sockets headers, but these are short and don't need clipping. Great for when you want a super-slim easy-to-plug kit of Pico + hardware.

Note: Kit includes two 20-pin header. Pico not included.
