

SmartPro 1440VA 1100W Line-Interactive Sine Wave UPS, AVR, 120V, 5 Outlets, Network Card Option, LCD, USB, 1U Rack/Tower

MODEL NUMBER: **SMC1500RT1U**

Provides complete battery backup and power protection for servers, switches and other in-rack IT equipment in small-to-mid-size networks.

Features

1440VA/1100W/120V Battery Backup for PC Networks, Security Systems or Digital Signage

This SmartPro® line-interactive UPS system with AVR provides reliable battery backup and AC power protection against blackouts, brownouts, surges and line noise that can damage valuable electronics or destroy data. The SMC1500RT1U is ideal protection for point-of-sale and kiosk applications, a small-business VoIP network or rack-mount equipment, such as servers and switches, in your server room or network closet.

Reliable Battery Backup Keeps You Operational Through Power Outages

The field-replaceable, hot-swappable internal battery provides eight minutes of support at half load (550W) and two minutes at full load (1100W), allowing you to work through short power failures and giving you enough time to safely save files and shut down your system in case of a prolonged blackout.

Optional WEBCARDLX Network Interface Offers 24/7 Remote Access for Monitoring and Control

The optional WEBCARDLX (sold separately) with the latest version of PowerAlert® Device Manager firmware (PADM20) provides enhanced remote management capabilities, including customizable dashboard graphs to fit user preferences. The PADM20 upgrade and PowerAlert Element Manager (PAEM) software form a powerful tool for expanding maintenance functions in large installations, including firmware update checks and backup and restoration of device configurations.

NEMA 5-15R Outlets Protect Your Connected Components

Five 5-15R outlets provide connected equipment with pure sine wave AC output during blackouts, overvoltages and severe brownout conditions. Power provided by these outlets is filtered to protect connected equipment against damaging surges and line noise.

Automatic Voltage Regulation (AVR) Corrects Low- and High-Voltage Conditions

AVR protects your equipment from incremental hardware damage, data loss and performance problems caused by brownouts. The SMC1500RT1U maintains regulated 120V nominal output during brownouts as low as 90V, while keeping the battery fully charged and ready to take over in case of power failure.

Premium Protection from EMI/RFI Line Noise Helps Your Equipment Perform Better

Highlights

- Protects equipment against blackouts, brownouts, transient surges and line noise
- Keeps AC power running during outages to allow time for file saves and safe shutdown
- Maintains continuous 120V nominal output during brownouts as low as 90V
- 5-15R outlets power and protect networking, telecom and other sensitive equipment
- Optional WEBCARDLX offers 24/7 remote access for enhanced real-time management

Package Includes

- 1440VA 1100W 120V Line-Interactive UPS with 5 Outlets
- USB cable
- EPO/ROO connector
- Rack-mounting hardware
- Owner's manual

This UPS system filters out disruptive electromagnetic and radio frequency interference that can inflict hardware damage or data loss. This EMI/RFI filtering also helps your connected components perform better and last longer.

Designed for High Efficiency to Help You Save Money and Protect the Environment

A 98% efficiency rating reduces BTU emissions, energy consumption and, ultimately, your energy costs.

Intuitive Front-Panel Interface for Convenient UPS Operation and Monitoring

The front-panel LCD features detailed UPS and site power status and operating data (including load, voltage and battery data) and multiple screens of configuration and setup options. LEDs indicate AC output availability and fault status. On-screen operational diagram offers an easy-to-grasp visual representation of line and battery modes.

Advanced Communications Ports Allow for Automatic Saves and Shutdowns

An HID-compliant USB port connects to a computer running free downloadable PowerAlert software to enable safe unattended shutdown in case of a prolonged power failure. The EPO/ROO port supports emergency shutdown in large facilities or remote On/Off capability. USB cable is included.

Versatile Installation Options

Hardware is included for mounting the UPS in just 1U of space in an EIA-standard 19-inch 4-post or 2-post rack. You can also adapt it for tower mounting using the included hardware. The six-foot power cord with NEMA 5-15P plug connects to a compatible AC outlet.
