**Current-carrying capacity curve**

PCB terminal block (2626-31xx/0020-0000)

Pin spacing: 7.5 mm / Conductor cross-section: 10 mm<sup>2</sup> "f-st"

Based on: EN 60512-5-2 / Reduction factor: 1

Current in A

Dimensions in mm  
L = 9.3 mm

## Item description

- PCB terminal strips with Push-in CAGE CLAMP® connection
- Push-in termination of solid and ferruled conductors
- Ideal for panel feedthrough applications via operation parallel to conductor entry
- Testing can be performed both parallel and perpendicular to conductor entry

## Data Notes

### Note

The inherent stability of a single-pole PCB terminal block is less than that of a multi-pole terminal strip. The customer must therefore ensure that these terminal blocks are protected against excessive mechanical stress (e.g., torsional or bending stress), both when connecting the conductor and during subsequent use, for example by providing additional support, shortly holding the connected conductor and appropriate actuation instructions.
