Item description

Female connector/socket *WINSTA*® MIDI with protection against mismating

The *WINSTA*® MIDI female connector/socket with locking latch are compact but powerful PCB terminal blocks. They offer convenient operation and the greatest flexibility for installation. Our extensive selection of pluggable PCB connectors with various insertion directions and operating variants offers you the right solution for your application at all times. The coding options reduce installation errors, allowing fast, secure wiring of all components. Pcb connectors with B coding from the *WINSTA*® MIDI line are available in gray, light green, or pink, allowing you to distinguish different circuits, for example for light, pumps or, sun blinds. Usage-specific pole marking is possible, too. This pcb connectors can be used for a load of up to 25 A. Thus, pcb connectors can also be used for high power loads. The *WINSTA*® MIDI product line allows maximum flexibility for the installation. With its Push-in CAGE CLAMP® spring pressure connection technology, it guarantees time-saving, error-free installation and offers customization for meeting various installation requirements.

Lower costs through fast commissioning and elimination of service expenses – solutions from *WINSTA*® MIDI

WINSTA® is the pluggable connection system that is optimally tailored to the strict requirements of electrical installation. It allows fast, secure and, above all, error-free installation of components and cables. Enjoy the benefits of the pluggable version of our maintenance-free spring pressure connection technology too! Plan your installation with with protection against mismating from WAGO.
