

TOUCH-SAFE PTC HEATER

CS 060 | 50 - 150 W

- > Low surface temperature
- > Compact size
- > Wide voltage range
- > Double insulated protection
- > DIN rail mountable

The CS 060 is a touch-safe heater for use in enclosures. The design of the heater utilizes natural convection which results in a circulating current of warm air. The surface temperatures on the accessible side surfaces of the housing are minimized as a result of the heater design. The CS 060 is also available in a version with a plug-in thermostat requiring no additional wiring (CSF 060).
