

Piezo keypad

Product overview

High reliability and durability, ideal for use in tough environments

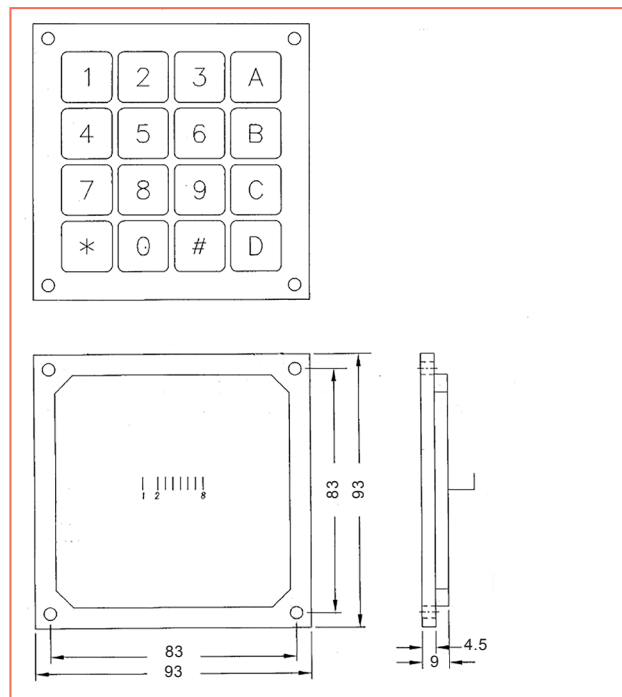

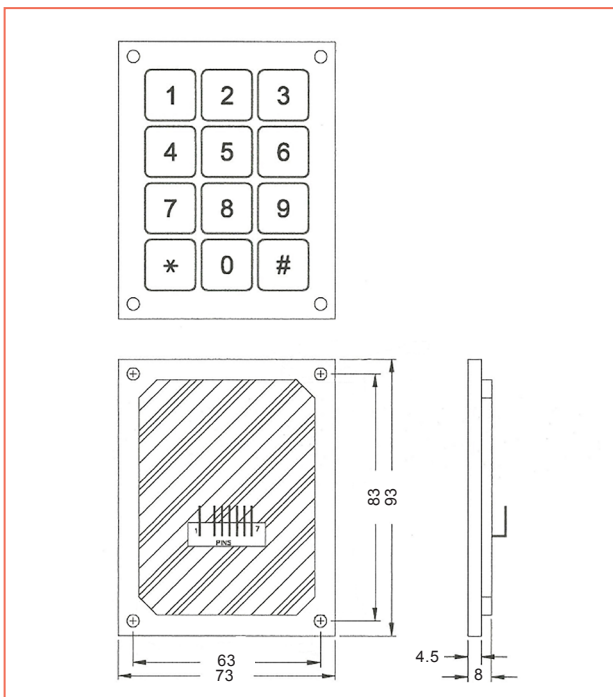

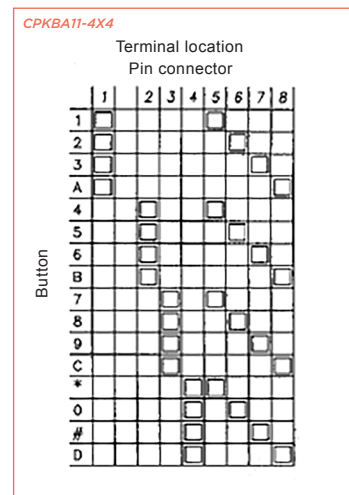

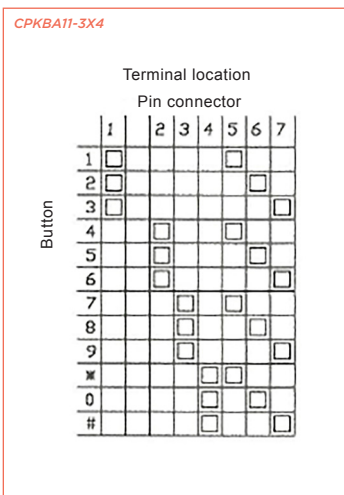

IP68 dust and water resistant, sea-water and detergent resistant

- No moving parts, maintenance free
- Made from one piece of solid aluminium, totally rugged
- Potted switching unit at rear seals against all contamination and prevents freezing

SPECIFICATION	
Operating voltage	1-24V DC
Switching current	0.2A max
Insulation resistance (off)	>5mΩ
Initial contact resistance (on)	<7.5Ω
Actuation force	3-5N
Operating temperature	from -40°C to +125°C
Ingress protection	IP68
Electrical lifetime	15 million operations

PART NO.	TYPE
CPKBA11-3X4	3x4 keys
CPKBFT1-4X4	4x4 keys

KEY FEATURES

Anti-vandal design | Endless combinations | Maintenance free
