

A range of panel mounting audio and video connectors incorporating many innovative features,

- Pressed socket contacts which 'float' to assist plug mating, also ensuring a positive 'wrap round' contact with the pin, which can 'move' with the pins should any movement occur between mating connectors.
- A simple press down, squeeze clip release mechanism makes it particularly easy to use.
- Generous solder buckets enable easier cable assembly as well as catering for larger conductor sizes.
- Available in two finishes satin nickel or black.
- Available with Silver or Gold Contacts
