HAND TOOL	TC-2220- 8/10P-88-1	

The diagram shows a cross-section of a cable. It has a central core with two conductors, each surrounded by an insulator. This core is encased in a vinyl jacket. The overall width of the cable is labeled as 11.7 ±0.3. The width of the central core is labeled as 6.09 ±0.3. A large 'B' is positioned at the bottom right of the diagram area.

APPLICABLE CABLE		
	INSULATOR OUTER DIAMETER (ϕ mm)	$\phi 0.90 \sim \phi 1.00$
	VINYL SHEATH DIAMETER $B \times C$ (mm)	8.8×2.6
